Ozorni program za društvene i humanističke znanosti 2014.-2015.

Fakultet političkih znanosti Sveučilišta u Zagrebu
11. lipnja 2014.
Marina Pražetina
Agencija za mobilnost i programe Europske unije
1. Introduction to the general structure and objectives of Horizon 2020

1. Integrating SSH across Horizon 2020

2. WP 2014-2015 Science with and for Society

3. WP 2014-2015 Europe in a changing world – inclusive, innovative and reflective Societies
What is Horizon

• The new European Union programme for research and innovation for 2014-2020

• A budget of nearly €80 billion; 30 per cent higher in real terms than the previous programme

• A core part of Europe 2020, contributing to Europe 2020 flagship initiatives Innovation Union and Digital Agenda for Europe & European Research Area
  ➢ Responding to the economic crisis to invest in future jobs and growth
  ➢ Addressing people’s concerns about their livelihoods, safety and environment
  ➢ Strengthening the EU’s global position in research, innovation and technology
Europe 2020 Strategy

Europe 2020 a Strategy for Growth and Job – is a strategy „to turn the EU into a smart, sustainable and inclusive economy delivering high levels of employment, productivity and social cohesion...

To ensure that each Member State tailors the Europe 2020 strategy to its particular situation, the Commission proposes that EU goals are translated into national targets and trajectories.“
Europe 2020 Strategy Architecture

Thematic Approach
defined priorities, targets and flagship initiatives

Europe 2020-Strategy: Vision of a European social market economy in the 21st century

Three priorities:

Smart growth: Development of an economy based on knowledge and innovation

Sustainable growth: Promotion of an economy that is preserving resources, more ecological and more competitive

Inclusive growth: Promotion of an economy with high employment and high social and territorial cohesion

Three priorities → five main targets:

75% of the 20-64 year-olds to be employed

3% of the EU's GDP for R&D

Attainment of the 20-20-20 Climate protection targets

School drop-out rates below 10%, 40% of the 30-34 with 3rd level ed.

20 million fewer people in poverty

For implementation seven Flagship Initiatives:

Innovation Union

Youth on the move

Digital Agenda for Europe

Resource efficient Europe

Industrial policy for the globalisation era

An agenda for new skills and jobs

European platform against poverty
IZVRSNA ZNANOST

EURATOM
Budget from 2014 to 2020

HORIZON 2020 BUDGET (in current prices)

- **Industrial Leadership**
  - EUR 17.0 billion

- **Societal Challenges**
  - EUR 29.7 billion

- **Excellent Science**
  - EUR 24.4 billion

- **European Institute of Innovation and Technology**
  - EUR 2.7 billion

- **Other**
  - EUR 3.2 billion

- **Euratom (2014-2018)**
  - EUR 1.6 billion
Horizon 2020 is divided into 3 three pillars corresponding to its main priorities:

1. **Excellent Science**

   European Research Council (ERC)
   - Frontier research by the best individual teams

   **Future & emerging technologies (FET)**
   - Collaborative research to open new fields of innovation

   **Marie Sklodowska-Curie actions (MSCA)**
   - Opportunities for training and career development

   **Research infrastructures (including e-infrastructure)**
   - Ensuring access to world-class facilities
2. Industrial Leadership

Leadership in enabling & industrial technologies (LEITs)
- (ICT, nanotechnologies, materials, biotechnology, manufacturing, space)

Access to risk finance
- Leveraging private finance & venture capital

Innovation in SMEs
- Fostering all forms of innovation in all types of SMEs
3. Societal Challenges

1. Health, demographic change & wellbeing
2. Food security, sustainable agriculture and forestry, marine/maritime/inland water research and the bioeconomy
3. Secure, clean & efficient energy
4. Smart, green & integrated transport
5. Climate action, environment, resource efficiency & raw materials
6. Inclusive, innovative & reflective societies
7. Secure societies
What’s new in H2020

- A single programme bringing together three separate programmes/initiatives
- Coupling research to innovation - from research to retail, all forms of innovation
- Focus on societal challenges facing EU society, e.g. health, clean energy and transport
- Strong focus on SMEs
- New approach to Work Programmes and Calls
- Open to the rest of the world
- Simplified access for all companies, universities, institutes in all EU countries and beyond
Major Simplification

1. A single set of rules for all funding under Horizon 2020
   – Fewer, more flexible, funding instruments

2. Simpler reimbursement: 1 project = 1 funding rate
   – 100% of the total eligible costs (70% for innovation actions)
   – Non-profit legal entities can also receive 100% in innovation actions
   – Single flat rate for indirect costs (25% of eligible costs)

3. Shorter time to grant
   – Within 8 months of call deadline

4. Fewer, better targeted controls and audits

5. Coherent implementation
   – Through dedicated agencies
   – Single IT system

6. Simplification in grant agreements
New approach

• More strategic

• Two year work programmes (2014-2015)

• Less prescriptive calls (64 calls in 2014)
  – Specific challenge
  – Scope
  – Expected impact
International cooperation

• Principle of general openness: the programme will be the most open funding programme in the world

• Open to the association of: enlargement countries / EFTA / European Neighborhood (and others associated to FP7)

• Targeted actions to be implemented taking a strategic approach to international cooperation
# Types of action

<table>
<thead>
<tr>
<th>Action Type</th>
<th>Number of Legal Entities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research &amp; innovation action</td>

</tr>
<tr>
<td>Innovation action</td>
<td>3 legal entities (different MS or AC)</td>
</tr>
<tr>
<td>Coordination &amp; support action</td>
<td>1 legal entity in MS or AC</td>
</tr>
<tr>
<td>SME instrument</td>
<td>1 for-profit SME (in MS or AC)</td>
</tr>
<tr>
<td>ERA-NET Cofund</td>
<td>3 legal entities - research funders (different MS or AC)</td>
</tr>
<tr>
<td>Pre-commercial procurement (PCP) Cofund &amp; Public procurement of Innovative solutions (PPI) Cofund</td>
<td>3 legal entities in different MS or AC (min. 2 legal entities are public procurers)</td>
</tr>
</tbody>
</table>
Evaluation criteria

1. Excellence
   - Clarity of the objectives;
   - Soundness of the concept, including transdisciplinary considerations;
   - Credibility of the proposed approach;
   - Progress beyond the state of the art.

2. Impact [...] extent to which project outputs contribute to:
   - The expected impacts listed in the work programme under the relevant topic;
   - Enhancing innovation capacity and integration of new knowledge;
   - [Strengthening the competitiveness and growth of companies by developing innovations meeting the needs of European and global markets;]
   - Effectiveness of the proposed measures to communicate the project, disseminate and/or exploit the project results, and appropriate management of IPR.

3. Quality and efficiency of implementation
   - Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources;
   - Competences, experience and complementarity of the individual participants, as well as of the consortium as a whole;
   - Appropriateness of the management structures and procedures, including risk management.
Simpler access

- Single entry point from calls to electronic submission of proposals
- New tools for smart searches for the benefit of users, including newcomers to the programme.
Integrating SSH across Horizon 2020
Integration of SSH in Horizon 2020

SSH in Horizon 2020
"Social sciences and humanities (SSH) research will be fully integrated into each of the general objectives of Horizon 2020."

Horizon 2020 draft regulation

Integrating SSH: two approaches

- **General Integration**: All Societal Challenges, LEIT (Leadership in Enabling and Industrial Technologies) and activities under Excellent Science are generally open to SSH contributions in all their lines of activity and thus favor 'integrating SSH' as genuine interdisciplinarity ('integrating in the research problem').

- **Dedicated Integration**: In some Societal Challenges and parts of LEIT a specific SSH line of activity called 'the socio-economic dimension of...' is delineated, i.e. requires SSH research.
Struktura Obzora 2020.

EURATOM
Funding for SSH under Horizon 2020

Significant funding provided under the Excellent Science pillar

- 17% of the European Research Council budget
- 11% of the Marie-Sklodowska Curie Actions budget
- Funding for interdisciplinary SSH-S&T projects under FET
- Funding for existing and new SSH Research Infrastructures

Industrial Leadership – Leadership in enabling and industrial technologies (LEIT)

Strengthening the cultural and social aspects of innovation

- SSH as a source of creativity in development of services and products
- Societal aspects of new and emerging technologies (e.g. societal acceptance; citizens' participation in decision-shaping; ethical aspects; new technologies and changing lifestyles)
- Business and management models
SSH under Societal Challenges

**Societal Challenges**
- Behavioral aspects
- Consumption and lifestyles
- Management, governance
- Public awareness & acceptance
- Policy support / assessment
- Social innovation
- Markets, business development
- Economic systems and instruments

*37% of all topics under the programmed parts of Horizon 2020 are flagged as relevant for the SSH*
SSH under Societal Challenges

Health
Disease prevention, indicators for wellbeing, support to policymaking, improving health care systems, health inequalities, demographic change...

Food security
Sustainable production and consumption, forward looking activities, impact assessment, organisational/economic/social innovation...

Energy
Understanding interactions between social, economic and environmental systems, tools for effective decision-making, forward looking activities, public acceptance and user involvement...
SSH under Societal Challenges

**Transport**
forward looking activities, policy analysis and development, social inclusion, user behaviour, access to mobility (& inequalities), transport management, economic aspects...

**Climate action**
Understanding interactions between social, economic and environmental systems, vulnerabilities and resilience of societies, fostering eco-innovation (incl. social innovation), transition to a green economy and society, sustainable lifestyles,...

**Security**
Terrorism, crisis management, societal resilience, socio-economic and cultural dimensions of security, communication, perception, legal & ethical aspects, trade issues, EU external security policy, conflict management & peace building...
EE 12 – 2014 “Socioeconomic Research on Energy Efficiency”
Includes...

Foresight socio-economic activities informing the debate on the development and monitoring of energy efficiency strategies
...the evolution of social, economic, cultural and educational barriers...
...major trends in society and their implications...
...consumer behaviour (e.g. rebound effect) and the impact of institutional factors...
...take gender issues into account as well as existing macroeconomic and microeconomic models and results of socio-economic sciences and humanities.
In addition, see all the open calls of Marie Skłodowska-Curie actions (MSCA) and European Research Council (ERC) grants for individual researchers of any nationality and research teams. The MSCA grants include opportunities for companies and SMEs. The MCSA and ERC grants are not restricted to specific topics.

Quick finder for topics linked to H2020 cross-cutting priorities:
- Cross-cutting Key-Enabling Technologies (KETs)
- ERA-NET
- Gender
- Contractual Public-Private Partnerships (cPPPs)
- International cooperation
- SME Instrument
- Socio-economic sciences and humanities

What is Science with and for Society?

Main objective:

„The aim is to build effective cooperation between science and society, to recruit new talent for science and to pair scientific excellence with social awareness and responsibility.“
Responsible Research and Innovation is a Cross-Cutting Issue in Horizon 2020

1. Engagement

2. Gender Equality

3. Science Education

4. Ethics

5. Open Access
## Science with and for Society

These activities are targeted to citizens and their associations or groupings, with primary, secondary and higher education establishments, science museums, libraries, but also media, artists, creative industries, as well as researchers and innovators, policy makers at national, regional and local levels, research organisations, etc.
1. Call for Making science education and careers attractive for young people (SEAC);

- Developing scientific citizenship by promoting innovative pedagogies in science education, attracting more young people towards science, with a special emphasis on girls, and addressing the challenges faced by young people, in pursuing careers in science, technology, engineering and innovation;
- Developing Responsible Research and Innovation in Higher Education Curricula;
- Easing the access to scientific careers by increasing the service level of the EURAXESS Services Network.
1. Call for Making Science Education and Careers Attractive For Young People

</tr>
</tbody>
</table>
2. Call for promoting Gender Equality in Research and Innovation (GERI)

- Encouraging girls to study science and female students to further embrace a career in research;
- Analysing the impact of gender diversity in research teams on research and innovation outcomes;
- Developing a common framework to evaluate national initiatives to promote gender equality in research policy and research organisations;
- Supporting research organisations to implement gender equality plans.
### 2. Call for promoting Gender Equality in Research and Innovation

The objectives of Societal Challenge 6

"To foster a greater understanding of Europe, provide solutions and support inclusive, innovative and reflective European societies in a context of unprecedented transformations and growing global interdependencies"

Horizon 2020 Regulation

SC6 includes „research and innovation activities contributing to make societies more inclusive, innovative and reflective, and also specific measures supporting particular cross-cutting issues mentioned in this societal challenge ."
Structure of Societal Challenge 6

✓ Inclusive Societies:
  ✓ Smart, sustainable and inclusive growth
  ✓ Resilient societies (migration, integration, demographic change)
  ✓ Europe's role as a global actor
  ✓ Inclusive environments - spatial and urban planning

✓ Innovative societies:
  ✓ Evidence-base and support for the IU and ERA
  ✓ New forms of innovation (public sector innovation, social innovation, new business models)
  ✓ Potential of all generations
  ✓ Cooperation with third countries

✓ Reflective societies:
  ✓ European heritage (memory, identity, culture)
  ✓ European countries' and regions' history, literature, art, philosophy and
  ✓ Europe's role in the world; intercultural relations
### Societal Challenge 6 → 5 Calls

1. **"EURO"-CALL**: Overcoming the crisis: new ideas, strategies and governance structures for Europe

2. **"YOUNG"-CALL**: The young generation in an innovative, inclusive and sustainable Europe

3. **"REFLECTIVE"-CALL**: Reflective societies: cultural heritage and European identities

4. **"INT"-CALL**: Europe as a global actor

5. **"INSO"-CALL**: New forms of innovation
### Societal Challenge 6 → 5 Calls state of the play 2014

How to Write a Competitive Proposal

• 5 Key Questions for evaluators

1. Why bother? (what problem are you trying to solve?)
2. Is it a European priority? Could it be solved at National level?
3. Is the solution already available (product, service, transfer)?
4. Why now? (What would happen if we did not do this now?)
5. Why you? (Are you the best people to do this work?)

• Questions must be answered in the first 15 seconds of the proposal!
Questions to Assess „Impact”

1. What will come out of your project („Expected Results”)
2. Who wants these results? („Lead Users” or „Lead Stakeholder”)
3. Why do they (Lead User) want the results?
4. How do you plan to tell the „Lead Users” about the results?
5. What further development (steps) will be needed?
