Logistics for Manufacturing SMEs
Challenges for European manufacturing industry, SMEs
Logistics account for up to 50% of total manufacturing cost of an item

Shorter production cycles, individualization and customization require more flexibility.
New technologies require strategic thinking, simulation, planning and re-skilling
Innovation always relies upon the combination of technical knowledge and access to finance
L4MS – Unleash the full innovation potential for intra-factory logistics
L4MS – Open platform for innovations in logistics

Complete digitalization to enable cost effective deployment of small and flexible logistics solutions requiring no infrastructure change, no production downtime and no in-house expertise.
L4MS – Virtual marketplace

This “one-stop-shop” for logistic automation will gather all the services offered by the partners.
L4MS – Network of competence centres

A network of 6 competence centres specialized in robotics and their respective ecosystems which will act as marketplace facilitators.
L4MS – Industrial and business network

Access to services offered by the technology suppliers (AGV manufacturers and system integrators) and the business developers (investors and brokers).

- ASTI: AGV manufacturer and supplier
- KINE: Creative system integrator
- ENG: IoT service provider and integrator
- ED: ICT service provider and integrator
- VIS: 3D simulator for robot applications
- FBOX: Third party funding
- HBD: Access to finance
- MWC: Training and skill development
L4MS – Complete solution

L4MS ecosystem unleashes the innovation potential of manufacturing industry especially SMEs and Mid-Caps across Europe.

New innovative service and business models

Low cost customized and standardized AGV systems

Easy access without in-house expertise

Real evidence and data for the investors
How to get involved in L4MS
SMEs and Mid-Caps are invited to submit business proposals to participate in the acceleration program. Calls will be open in:

2018: 1st September - 30th November
2019: 1st September - 30th November
L4MS – Smartization program

STAGE 1
- Match-making
- Championship boot camp

STAGE 2
- Technical and business proposal
- Business support
- Technical execution
- Mentoring

STAGE 3
- Scale up boot camp
- Loans...
- VCs investment

2 months
8 months
11 months
L4MS Network

- Competence centers
- Satellite nodes
- Dissemination
- Training
- Market assessment
- Trend analysis
- Expertise
- Infrastructure
- Brokerage
